AXCESS International to Present at Rodman & Renshaw 3rd Annual Security, Biodefense & Connectivity Conference

DALLAS – June 14, 2006 – AXCESS International Inc. (OTCBB: AXSI), a leading provider of Radio Frequency Identification (RFID) and Real Time Location Systems (RTLS), has been invited to present at the Rodman & Renshaw 3rd Annual Security, Biodefense & Connectivity Investor Conference, to be held on June 19, 2006, at the St. Regis Hotel in New York. Allan Griebenow, President and Chief Executive Officer of AXCESS, will present at 8:55 AM Eastern time. This is the second year in a row that AXCESS has been invited to present at the Annual Security, Biodefense & Connectivity Investor Conference.

The conference, which brings together over 50 emerging growth security and connectivity companies, is a unique opportunity for companies to showcase their technologies and for the investment community to access some of the most exciting opportunities in the security and connectivity space.

The 3rd Annual Rodman & Renshaw Security, Biodefense & Connectivity Conference follows on from the success of the firm's event held in 2005. More than 500 delegates, including institutional investors, venture capitalists, and senior corporate executives as well as experts from the scientific and government communities, attended the 2005 event. Companies selected for the 2006 event will present their strategies, product portfolios and financial outlook in an array of security markets including biometrics, digital network protection and physical & perimeter security.

The format of the Conference will include company presentations, breakout sessions, and one-on-one meetings with presenting companies, as well as a featured guest speaker, General Wesley Clark. For more information, registration, or to view the list of presenting companies, please include this link on your press release: www.rodmanandrenshaw.com/security2006

About AXCESS International Inc.

AXCESS International Inc. (OTCBB:AXSI), headquartered in greater Dallas, TX, provides Radio Frequency Identification (RFID) and Real Time Location Systems (RTLS) for asset management, physical security and supply chain efficiencies. The battery-powered "active" and "semi-active" (on-demand) RFID tags locate, identify, track, monitor, count, and protect people, assets, inventory, and vehicles. AXCESS' RFID solutions are supported by its integrated network-based, streaming digital video (or IPTV) technology. Both patented technologies enable applications including: automatic "hands-free" personnel access control, automatic vehicle access control, automatic asset management, real time location determination, and sensor management. AXCESS is a portfolio company of Amphion Innovations plc. Additional information about AXCESS is available on its Web site at www.axcessinc.com.
